

# Worship Together - Primary Activity

The image shows a primary activity template. At the top, four balloons are drawn on a single horizontal string. Each balloon is attached to a separate vertical string that extends downwards. These four vertical strings are positioned above a grid of eight empty rectangular boxes. The balloons are arranged in pairs: the first and second balloons are on the left, the third and fourth are on the right. The background behind the balloons consists of four light gray, diagonally-hatched rectangular areas, each positioned behind one of the balloons. The grid below is a single row of eight empty boxes, intended for students to write their names or other information.
